1. Introductory Note by the Chairman of DWTCA

Since its inauguration in 1979, Dubai World Trade Centre has played a critical role in the development of Dubai as the business gateway fuelling international trade with the Middle East, African and South Asian region. From the landmark Sheikh Rashid Tower to the region's largest purpose-built complex for events and exhibitions, DWTC has sustainably grown the contribution of trade and consumer events to Dubai's GDP, pioneering networking platforms for international markets to expand across the region.

Much of this success is enabled by the Dubai government's commitment to continuously building on the Emirate's competitiveness as a global business destination and event hub through stimulating investments in infrastructure expansion, supporting innovative content creation and regulatory levers.

Driven by the strategic mandate of His Highness Sheikh Mohammed bin Rashid Al Maktoum, UAE Vice President & Prime Minister and Ruler of Dubai, the newly formed Dubai World Trade Centre Authority (DWTC Authority) and its subsequent policies mark the next stage of evolution in Dubai's proposition.

The DWTC Authority delivers a uniquely flexible model offering convenient co-location of onshore and offshore operations, within a streamlined business-conducive regulatory environment that serves as a strong incentive for global multinationals and small-medium enterprises to headquarter their regional bases in Dubai.

With the ability to craft, deploy and manage best-in-class legislative policies and operational procedures in collaboration with government authorities, DWTC

Authority will offer a highly competitive, single-point of contact ecosystem for corporates, allowing them to hold a business operating permit for any onshore-licensed entity, in tandem with an independent free-zone license for their business to be operable from within the same zone.

To this end, the strategic location of the zones enhances the DWTC Authority's ability to catalyse the influx of domestic and international investments and empower businesses – at the very heart of the city's Central Business District in the Dubai Trade Centre District, and at the new Dubai Trade Centre Jebel Ali, housing the World Expo development, adjacent to Al Maktoum International airport in Dubai South.

Proximity to the exhibition complex and the city's upcoming aerotropolis, increases attractiveness for international association groups to establish their permanent representation in the offshore zones, and allows organisers to deliver a seamlessly integrated and logistically unrivalled event experience, further encouraging participating businesses to use Dubai as the showcase to enter regional markets.

Backed by facilitating infrastructure, Smart Government-linked technological investments and ecosystem enhancements, coupled with the continued support from our partners across the government and private sector, DWTC Authority aspires to remain a strategic delivery engine for the development of Dubai's business proposition.

In alignment with Dubai Plan 2021 and the Innovation Agenda for the Emirate, we will further build on the city's recognised position as a leading, safe and competitive platform to operate, expand and leverage.

His Highness Sheikh Hamdan Bin Rashid Al Maktoum,
Deputy Ruler of Dubai, and UAE Minister of Finance
Chairman of Dubai World Trade Centre Authority
